Before Getting Started:
Read all instructions before beginning this project to find valuable tips, save time and minimize mistakes by understanding the process before you begin!

Truly McKenna Art Prints are not pre-shrunk. If you are making a quilt that will be washed after use, you may want to pre-wash your fabrics.

The term WOF refers to width of fabric.

Use an accurate ¼” seam allowance to join blocks and borders, pressing to minimize bulk and, as possible, toward the darker fabric, unless instructed otherwise in pattern directions.

We strive to create accurate patterns, but just as no tree in nature is perfect, neither are we. Visit our website at www.pineneedles.com for any corrections before beginning your quilt.

Finishing Basics
Layering & Quilting:
Smoothly layering and securing the batting, backing and completed quilt top prepares your art quilt for successful finishing.

1. Cut batting so that it extends 2”-3” beyond all sides of the finished quilt top.
2. Place the backing on a smooth surface with right side down; center the batting over the backing and smooth into place.
3. Place the quilt top over the batting, right side up.
4. Baste the layers together by pinning, spray basting or hand basting, as desired.
5. Thread your machine with monofilament or cotton thread for top stitching, and cotton or polyester/cotton thread in the bobbin. Attach the sewing machine’s darning foot and lower the feed dogs.
6. Echo the edges of each appliquéd piece by smoothly moving the basted layers under the needle to free-motion quilt the layers, or quilt with an allover design of your choice.
7. Trim all layers of your quilt evenly on all four sides.

Binding:
Finish the edges of your quilt with a simple, traditional single-fold continuous binding. If you’re not familiar with this technique, visit our website at www.pineneedles.com to find fully-illustrated, printable instructions; or ask for assistance at your local quilt shop.

1. Cut 7 - 2½” x WOF strips from Fabric 3 binding fabric.
2. Join to create a binding at least 257” long; fold lengthwise and press with a single fold.
3. Stitch raw edge to trimmed quilt edge, mitering each corner.
4. Stitch the final seam to join the binding ends, and finish stitching the remaining portion to the quilt edge.
5. Turn the folded edge to the back of the quilt, and hand stitch to the quilt backing to finish.
